FEATURE ADDITION: AUTO-GENERATED PAS REPORT

Location: Case Handler View > Pre-Protection Tab > Step: "Under Evaluation" / "Prior Art Search Done"

Workflow & Logic Instructions:

- **Data Entry & Saving:** While the step is still "Under Evaluation" (not yet complete), add a dedicated button or feature (e.g., "Fill PAS Report") allowing the handler to input the report data. Include a **Save** or **Save Draft** function so the handler can iteratively add or edit information over time without losing progress.
- **Auto-Generation:** The final Prior Art Search (PAS) Report is auto-generated only upon officially completing the "Evaluation / Prior Art Search Done" step, pulling from the saved data.
- **Visibility & Access:** Admins must have the ability to view the current progress of the drafted PAS report at any time while it is being worked on. Applicants, however, will only be able to view and access the report once it is fully finished and the "Evaluation / Prior Art Search Done" step is officially completed.

Report Content & Sections: The generated report must include the following specific sections and tables:

- **General Information:**
    - University
    - Researchers
    - Title
    - Date of Research
    - Abstract
    - International Patent Classification (IPC)
    - Keyword(s)
- **Search Strings and Database (Table):**
    - *Column 1:* Database
    - *Column 2:* Search String
    - *Column 3:* Number of Hits
- **Documents Considered to be Relevant (Table):**
    - *Column 1:* Category
    - *Column 2:* Document Information (Patent number, Title, and Publication date)
    - *Column 3:* Abstract
    - *Column 4:* Publication Link
- **Comparison of Technical Features (Table):**
    - *Column 1:* Technical Features
    - *Column 2:* Present Invention
    - *Column 3+ (Dynamic):* D1, D2, D3, etc. (for comparing multiple documents)
- **Recommendation Section:**

    - Description
    - Novelty
    - Inventiveness
    - Industrial Applicability
- **Certification & Signatures:**
    - "Search conducted by:" (with signature line)
    - "Search reviewed by:" (with signature line for the IP Officer)
