Figma Prototyping & System Design Prompt: New Homepage Features (Completed IP Repository & Statistics)

1. New Homepage Tab: Completed IP Applications Repository

- **Dedicated Repository Tab:** Add a new, dedicated tab in the homepage navigation bar where general viewers and system users can browse a public or accessible repository of completed IP applications.
- **Inventor-Approved Descriptions:** Display relevant descriptions and details for these completed IP applications **strictly as allowed and approved by the inventor**. Ensure there is a privacy toggle or content-filtering mechanism reflected in the design to indicate inventor-approved visibility.

2. TTBDO Statistics & Impact Metrics on Homepage

- **Total Handled Cases Display:** Incorporate a prominent statistics section or counter on the homepage displaying the **total number of cases handled by TTBDO** to highlight institutional output, research impact, and intellectual property growth.
